WE SOLVE PAYMENTS

Sage Intacct with
Paya Integrated Payments

No-cost, cloud-based payments integration

Intacct is a leading independent provider of accounting and financial management software and is the fastest-growing cloud-based ERP solution targeting the mid-market.

Paya's integrated payment solution streamlines your back-office processes and simplifies reconciliation work. With $0 setup or development costs, real-time card and ACH acceptance has never been easier - or more cost effective!

Our embedded integration is a complete out-of-the-box experience that offers:

- ✓ Multiple payment options
- ✓ Syncing of payment data to Intacct as Journal Entries
- ✓ Card Present Transactions
- ✓ Stored tokenized card information to expedite future payments
- ✓ Pre-authorized payments
- ✓ Integrated with Quick Invoice customer portal
- ✓ Data Optimization (Level 3 Enrichment)
- ✓ Monitor financial health with comprehensive, customizable reporting

TOKENIZED DATA
